

# Mil-dot reticule gives Max aim & range finding

## NEW 6-24 x 50 A0 Essencial scope from BSA Optics

The BSA Essencial range, seven scopes from only £38 to £115, that cater for every airgun requirement. Designed specifically for Airgunners, these scopes are superbly built and finished, both internally and externally. All Essencial scopes have pin sharp multi-coated optics that give a bright, clear sight picture regardless of conditions, and an impressive range of features which make them remarkable value for money. But the most impressive part is the new BSA mil-dot reticule. Unlike other mil-dot's the BSA mil-dot has been designed with the dots closer together which gives the shooter a real edge, because unlike other mil-dot reticules where you don't use half the dots, with the BSA you do - so you know exactly where to aim, every time.

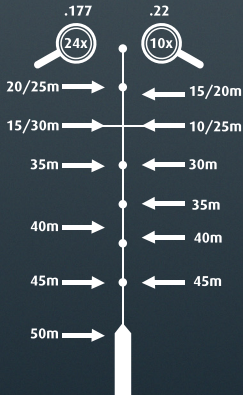

- Designed specifically for Airgunners
- Superbly built and finished
- Pin-sharp multi-coated optics
- Ultra fine 1/8MOA turret adjustment
- Finger adjustable turrets
- Fast focus eye piece

#### Mil-dot Reticule Range

4x32 with rings  
3-9x40 with rings  
3-9x40 illuminated reticule
