

XL TACTICAL

a sporter for all seasons

What 's better than
a Lightning XL?
Tough question.

Well the BSA XL Tactical is just that, a tough rifle, built on the legendary strengths of the Lightning XL, but with a super-durable, all-weather stock. We use a hi-impact polymer compound, specially designed to be always warm to the touch, with a comfortable secure grip and warp-free in any climate.

Doubling as a cocking aid, the full-barrell silencer features hi-tech internal baffles, and creates a slimline profile that looks as good as it feels. Power and performance all wrapped up in a sleek and stylish package, the new XL Tactical is truly a sporter for all seasons.

Hi-Tech synthetic stock
Super-tough, totally stable, hi-impact polymer, warm to the touch and completely weatherproof.

Enhanced trigger mechanism
Computer-designed and fully adjustable, backed by manual safety-catch.
