ND-3™

LONG DISTANCE LASER DESIGNATOR

BSA®
SPORT & RECREATIONAL OPTICS

THE ULTIMATE ALTERNATIVE TO NIGHT VISION

The ND3 Laser Designator uses patented technology to create true night vision and turns your scoped rifle into a night hunter. Combining a powerful, eye safe green laser diode and a precision optical collimator, the ND3 pairs with your scope and allows you to cast a bright beam of green laser light to fully illuminate targets up to 250 yards.

FEATURES:

- Adjustable mount allows beam to be zeroed to your scope in seconds
- Fits 1" or 30mm scope bodies
- Adjustable Beam (Rotary Optical Beam Collimator)
 - Allows quick adjustment of beam diameter and intensity
- Concentrated beam - no flooding
- Up to 7 hours battery life
- Nitrogen charged to prevent lens from fogging
- O-ring seals keep out water dust and dirt

£325
RRP

INCLUDES:

- ND-3 Laser Designator
